

How To Hold The Recorder

- All recorders have a thumb hole in the back and seven holes down the front. Some recorders have double holes on the bottom two holes.

- The left hand is placed at the top of the recorder, which is by the mouthpiece. The hand covers the thumb hole in the back of recorder and the first three holes. The pink finger of the left hand is never used and should be held away from the recorder.

- The right hand is placed at the bottom of the recorder. The right thumb is used to balance the recorder and is placed between the 4th and 5th holes on the back. The right hand fingers cover the four holes near the bottom of the recorder.

- Cover the holes completely with the fleshy pad of your fingers, NOT the fingertips

- Fingers should be slightly curved.

- Fingers that are not being used to cover holes should be held a little distance above their holes so they are ready to quickly play the next note.

- Hold your recorder at a 45-degree angle. Your elbows should be slightly away from your body. Make sure to sit up straight!
