A fifth grader practices tricks — and persistence — with the mini skate park they designed.

Third graders build collaboration skills as they create their very own pop-up business.

A first grader uses creative problem solving to turn a robot into a stuffie with style.

# FIND FUN CHALLENGES IN A TYPICAL DAY AT OUR ALL-NEW 2023 PROGRAM

## A.M. BASE CAMP

Drop off your camper with qualified local educators who start each day with games that spark creativity.

### MIMICBOT™:

Campers transform their own robot into a one-of-a-kind stuffie, and then take their creation home to inspire more original ideas!

### CATCHING AIR™:

When they design their own mini skate park, campers take on ramps and rails in an epic ride through physics, engineering and art!

## GAMES & LUNCH

Half the campers head outside to play action-packed games while the others eat lunch — and then they switch.

### POP-UP VENTURE™:

To create their own pop-up shop, campers use green energy and awesome entrepreneurship skills.

### INVENTION CELEBRATION™:

Campers become confident event planners as they set the mood with lights, music and an innovative Party Assistant!

## P.M. BASE CAMP

The day wraps up as campers wind down with problem-solving games.
